

## Riverside County NeighborhoodLIFT Eligible Geography

Navigate to the Riverside County Assessor's ParcelQuest web page via the following link:

<https://assr.parcelquest.com/Home>

Enter the property's 'House Number', 'Street Name' and 'Unit' (if applicable) in the PROPERTY SEARCH fields near the top of the form. Do not include street type (Ave., St., Rd. etc.) Street Direction is an optional field and does not need to be completed. Leave the 'DOCUMENT SEARCH' section option at the default: "<Select Document Type>" Click the green 'Search' button in the PROPERTY SEARCH section of the form.

NOTE: If the reCAPTCHA – "I'm not a robot" dialog box opens, click on the checkbox and follow the prompts to continue access to the database results.

If the property is found in the Riverside County database, the Property Detail tab opens with 'General Information', 'Property Characteristics', 'Assessment' and 'Recent Sale' summary information related to the property. The property is eligible for NeighborhoodLIFT financing.

If more than one record is associated with a property, up to five record options will display. Click on the "View" button to select the appropriate property or narrow the results by adding "Unit" information or a refined "House Number" (if applicable) in the PROPERTY SEARCH fields. If the property cannot be found in the Riverside County database, the message: "No Results Match Your Criteria" will display in bold red text below the PROPERTY SEARCH fields. The property is NOT eligible for NeighborhoodLIFT financing.
