

## NeighborhoodLIFT® Program Map San Bernardino County Eligible Geography

Navigate to Zillow's home page via the following link: <https://www.zillow.com/>

Enter the property's 'House Number', 'Street Name' and 'Unit' (if applicable) along with the 'City', 'State' and 'Zip Code' (if known) in the "Enter an address, neighborhood, city or ZIP code" search field in the center of the screen. Click the blue 'Search' button.

If the property is found in the Zillow database, the Property Details screen opens with summary information related to the property. Scroll down to the blue 'county web site' link below the property details section and above the Zestimate Details information. If the San Bernardino Auditor-Controller/Treasurer/Tax Collector's web site search page opens: (<http://www.mytaxcollector.com/trSearch.aspx>), the property is located in San Bernardino County and is eligible for NeighborhoodLIFT financing.

If a different County database opens, the property is not located in San Bernardino County and is NOT eligible for NeighborhoodLIFT financing.

NOTE: If the Zillow record indicates the property is located in San Diego County or Riverside County, the property may be eligible for Neighborhood LIFT financing. Follow the respective County lookup steps to confirm eligibility.
